ASIAN HERITAGE MONTH

Asian Heritage Month promotes Canada's diversity of Asian communities.

Across various Asian countries, a shared aspect that resonates deeply is the reverence for tradition and family values.

This initiative offers all Canadians an opportunity to learn more about the history and culture of many Asian Canadians. Together, we celebrate our contributions to the growth and prosperity of Canada. From the bustling streets of Hong Kong to the serene villages of Vietnam, respect for elders, cultural customs, and the cohesion of family units form an integral part of society's fabric.

Whether it's the elaborate rituals of a Hindu wedding in India, the harmonious tea ceremonies in Japan, or the vibrant Lunar New Year celebrations in China, traditions are upheld with pride and passed down through generations, fostering a sense of continuity and belonging. In a rapidly changing world, this reverence for tradition serves as a source of resilience and identity, anchoring communities amidst the currents of modernization and globalization.

With over 50+ Asian countries, let these stamps deliver each of their traditions, cultures, foods, arts and entertainment to every corner of the world and find its way back to Canada.

PROUD TO BE AN ASIAN CANADIAN
